CAREER OBJECTIVE

Dedicated Information Technology undergraduate with strong interest and practical experience in Artificial Intelligence, Machine Learning, and Data Science. Passionate about engineering end-to-end predictive models, intelligent AI systems, and data analytics pipelines. Eager to contribute technical, problem-solving, and analytical skills to innovative AI/ML projects and organizational success.

EDUCATION

Bachelor of Technology in Information Technology Birla Vishvakarma Mahavidyalaya (BVM)	Aug 2024 – Exp. May 2028
Honours in Data Science & Analytics Birla Vishvakarma Mahavidyalaya (BVM)	Aug 2026 – Exp. May 2028
Higher Secondary Schooling (12th Grade) N.V. Patel, Naroda	May 2022 – March 2024

TECHNICAL SKILLS

Languages: Python, C++, C, JavaScript, PHP	AI/ML & Data: Machine Learning, Pandas, NumPy, Scikit-Learn	Tools & Deployment: Git/GitHub, Vercel, HTML5, CSS3
Databases: MySQL	NLP & Analytics: Data Visualization, TF-IDF, NLTK	Core Concepts: Data Structures & Algorithms (DSA)

PROJECTS

StudyMate AI — Intelligent Learning & Quiz Assistant

[Live Hosted App: studymate-ai-flame.vercel.app](#)

- Engineered an AI-powered study platform providing automated document summarization, key concept extractions, and active-recall flashcard quiz generation.
- Integrated a 24/7 conversational AI tutor for contextual doubt resolution, accelerating student learning and retention.
- Designed a high-speed, modern responsive interface and deployed the live application on Vercel.

Heart-Risk Prediction & Health Analytics

[Live Hosted App: heart-disease-prediction-5mwy.vercel.app](#)

- Developed an end-to-end Machine Learning web application predicting cardiovascular risk based on clinical health metrics (cholesterol, blood pressure, ECG, age).
- Conducted thorough Exploratory Data Analysis (EDA), feature selection, and correlation matrices with Pandas, NumPy, and Scikit-Learn.
- Deployed the trained predictive model on Vercel with real-time risk assessment feedback for proactive health awareness.

Email Spam Detection System (NLP & ML)

Python | NLP | Scikit-Learn

- Built a machine learning classification pipeline to filter fraudulent and unwanted emails with high precision.
- Implemented Natural Language Processing (NLP) techniques including tokenization, stopwords removal, stemming, and TF-IDF feature extraction.
- Trained and evaluated Multinomial Naive Bayes classifier on large message datasets, achieving robust accuracy and minimal false positives.

Smart Student Hub (SIH — Smart India Hackathon)

Web App | MySQL | JavaScript

- Built a centralized platform for students to access study resources, track academic milestones, and collaborate seamlessly.
- Applied role-based access control and responsive UI design to streamline peer interactions.

CERTIFICATES

Google AI Essentials — Google / Coursera (5-Course Specialization)

 [Verify Credential](#)

Mastered foundational AI concepts, AI productivity tools, prompt engineering strategies, and responsible AI workflows.

Google Prompting Essentials — Google / Coursera (4-Course Specialization)

 [Verify Credential](#)

Specialized in crafting structured prompts for data analysis, complex reasoning, task automation, and workflow integration.

Getting Started with Artificial Intelligence — IBM SkillsBuild

 [Verify Credly Badge](#)

Comprehensive certification covering AI architectures, machine learning models, neural networks, NLP, and ethical AI principles.

Python for Beginners — Simplilearn SkillUp

Feb 2026

Foundational certification covering Python core concepts, object-oriented programming, data structures, and script automation.

CO-CURRICULAR ACTIVITIES

- **March 2026 | Cyber Shield:** Attended Cyber Security and Digital Safety Workshop organized by Center of Excellence – Sophos IT Department.
- **Sept 2025 | Peer-to-Peer Hands-On Machine Learning:** Completed 4-week training on ML algorithms and data visualization by ML Club & CE Department.
- **Jan 2025 | Data Science Essentials:** Participated in data science tools and techniques workshop organized by IT Department & IEEE CS BVM SBC.

EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

- **Jan 2026 | Football Tournament (Winner):** Represented team as Goalkeeper, contributing to team defense and coordination.
- **Jan 2025 | Cricket Tournament (Winner):** Represented team as Bowler & Batsman, showcasing strategic thinking and versatile teamwork.
- **Sports & Wellness:** Active participant in Badminton, Cricket, and Yoga programs promoting discipline and physical well-being.
- **Languages:** English, Hindi, Gujarati

DECLARATION

I hereby declare that all the information mentioned above is true and correct to the best of my knowledge.
